Exclusively by Design Lab

CLOSET SYSTEMS

THE CONVENIENCE OF A ONLINE SHOWROOM

At its core, “Structure” means organization, framework, order, and purpose. For a closet, that gives us a lot to work with.

Reach-in Closet

Slab door in Slate

SRUCTURE|3- CLOSET SYSTEMS

Powered by Design Lab LLC.

ENINEERED MATERIALS

Walk-in Style

Euro Door in Aged Barrel melamine

Today's engineered materials

are amazingly beautiful, consistent, lower cost, and earth friendly.
Advances in technology have progressed so much so, that the melamine sheets look just like real wood veneers. Most importantly the durabilty is outstanding.

STRUCTRE|3 is a lifetime product and then some. The components are all balanced with the same material on front and back. Additionally, the core is engineered wood and is in many ways the best core available, because it stays extremely stable , will not warp , or twist.

EXPERIENCE MATTERS

ONLINE RETAIL SHOWROOM
BACKED BY 80 YEARS OF COMBINED EXPERIENCE

Design Lab is an online cabinetry & closet company. It is designed to make the entire process simple, easy, and worry-free.
Part of that process is giving our customers choices that do not overwhelm, and that are tailored for customer conveniency. We offer expert design, quality products, 3 different purchasing options, and installations.
www.shopdesignlab.com | anytime, anywhere.

We are a confident bunch. 80 years of combined industry experience will tend to do that. Our customers receive the benefits of proven experience. Wether you buy online or in a brick & motar showroom - Its the experience of the team servicing you that matters most.

TIMES THEY ARE A CHANGIN'

From a price perspective **Structure|3** will not be your least expensive closet option, and we do not want to be. However, we don't carry the heavy expense of a showroom. Today's technology allows us to provide our customers with excellent communication, better attention, all at their convenience. Oh, yea - we can also provide a higher quality closet for lesser costs.

The Closet has traditionally been one of, if not the first room we visit when we wake for the morning

SHOULDN'T IT BE BEAUTIFUL?

By the way, how in the world did this gal wake up like this? Even the cat looks amazing
